P10_TA(2025)0295

Deforestation Regulation: certain obligations of operators and traders

Amendments adopted by the European Parliament on 26 November 2025 on the proposal for a regulation of the European Parliament and of the Council amending Regulation (EU) 2023/1115 as regards certain obligations of operators and traders (COM(2025)0652 - C10-0263/2025 - 2025/0329(COD))¹

(Ordinary legislative procedure: first reading)

¹ The matter was referred back for interinstitutional negotiations to the committee responsible, pursuant to Rule 60(4), fourth subparagraph.

Amendments 39, 66 and 102

Proposal for a regulation Recital 6

Text proposed by the Commission

(6) Non-SME downstream operators and traders have a significant influence on supply chains and play an important role in ensuring that supply chains are deforestation-free. They should, therefore, still be required to register in the information system. At the same time, ***all*** downstream operators or traders, whether or not they are SMEs, should continue to ensure full traceability by collecting ***and passing*** on reference numbers of due diligence statements and declaration identifiers assigned to micro and small producers.

Amendment

(6) Non-SME downstream operators and traders have a significant influence on supply chains and play an important role in ensuring that supply chains are deforestation-free. They should, therefore, still be required to register in the information system. At the same time, ***first*** downstream operators or traders, whether or not they are SMEs, should continue to ensure full traceability by collecting reference numbers of due diligence statements and declaration identifiers assigned to micro and small producers. ***This obligation to collect and keep reference numbers should only apply to the first down-stream operator and should not apply to all others down-stream operators further down in the supply chain.***

Amendment

(7) All operators, regardless of their size, placing relevant products on the market or exporting them fall under the scope of Regulation (EU) 2023/1115. This places an administrative burden on micro and small producers who place on the market or export their own products. In order to address the

concerns related to micro- and small-sized operators producing and placing on the market their own products and to further reduce the load of the information system, it is necessary to introduce a new sub-category of operators to whom the obligation to submit a due diligence statement should not apply. This new subcategory, called 'micro and small primary operators', should cover natural persons or micro- or small-sized enterprises established in a country classified as low risk in accordance with Article 29 of this Regulation placing relevant products on the market or exporting them which they themselves produce, meaning that they grow, harvest, obtain from or raise the relevant commodities contained in relevant products themselves. Both operators established within and outside of the Union should be covered by the definition of micro and small primary operator.

concerns related to micro- and small-sized operators producing and placing on the market their own products and to further reduce the load of the information system, it is necessary to introduce a new sub-category of operators to whom the obligation to submit a due diligence statement should not apply. This new subcategory, called 'micro and small primary operators', should cover natural persons or micro- or small-sized enterprises established in a country classified as low risk in accordance with Article 29 of this Regulation placing relevant products on the market or exporting them which they themselves produce ***in that country***, meaning that they grow, harvest, obtain from or raise the relevant commodities contained in relevant products themselves. Both operators established within and outside of the Union should be covered by the definition of micro and small primary operator.

Amendment

(8a) Furthermore, as part of the simplification efforts, the administrative burden resulting from the obligations for micro and small primary operators to submit a one-time simplified declaration under Article 4a and to collect information under Article 9(1) should be reduced by allowing

them to replace the geolocation of plots of land by the postal address of the plots of land or of the establishment from where the relevant commodities that the relevant product contains, or has been made using, were produced, provided that the postal address clearly corresponds to the geographic location of the plots or establishment concerned. This gives micro and small primary operators the free choice of providing either the geolocation of the plots of land or the postal address of the plots of land or of respective establishment.

Amendment 105

Proposal for a regulation Recital 11

Text proposed by the Commission

(11) To provide legal clarity that all micro, small and medium-sized undertakings, irrespective of their legal form, can benefit from the simplified provisions for micro small and medium-sized enterprises in Regulation (EU) 2023/1115, the definition of micro, small and medium-sized enterprises should be amended to clarify that the legal form should not be relevant for whether a natural or legal person meets the definition. The same should be clarified for micro and small primary operators.

Amendment

(11) To provide legal clarity that all micro, small and medium-sized undertakings, irrespective of their legal form, can benefit from the simplified provisions for micro small and medium-sized enterprises in Regulation (EU) 2023/1115, the definition of micro, small and medium-sized enterprises should be amended to clarify that the legal form should not be relevant for whether a natural or legal person meets the definition. The same should be clarified for micro and small primary operators. ***Moreover, the definition of micro and small primary operators should include operators who exceed the limits of at least***

two of the three criteria set out in Article 3(1) and (2), first subparagraph, of Directive 2013/34/EU but who can demonstrate that the parts of their balance sheet total, net turnover and average number of employees during the financial year which relate to their activities covered by this Regulation do not exceed the limits of at least two of three of those criteria.

Amendment 106

Proposal for a regulation Recital 12 a (new)

Text proposed by the Commission

Amendment

(12a) Ahead of the general review of Regulation (EU) 2023/1115 to be carried out by 30 June 2030, in the interest of simplification for operators and traders, the Commission should carry out a simplification review of Regulation (EU) 2023/1115 and should present a report by 30 April 2026. The report should evaluate the administrative burden and impact of this Regulation, in particular for micro and small operators. Furthermore, in the report, the Commission should indicate possible ways to address the identified issues, including through technical guidelines, improvements to the IT-system, delegated or implementing acts in accordance with the delegated powers provided for in the

Regulation and, where appropriate, accompany the report with a legislative proposal.

Amendment 107

Proposal for a regulation Recital 12 b (new)

Text proposed by the Commission

Amendment

(12b) The date of application of the provisions of Regulation (EU) 2023/1115 that lay down obligations on operators, traders and competent authorities, listed in Article 38(2) of that Regulation, should be postponed by 12 months. This is necessary in order to allow third countries, Member States, operators and traders to be fully prepared, including, to allow those operators and traders to establish the necessary due diligence systems covering all relevant commodities and products, so as to be in a position to fully comply with their obligations.

Amendment 108

Amendment 111

Proposal for a regulation Recital 16

Text proposed by the Commission

(16) In the light of the postponement of ***the date from which for micro and small operators are required to comply with*** Regulation (EU) 2023/1115, the dates in other related provisions, namely the repeal of Regulation (EU) No 995/2010 of the European Parliament and of the Council⁸, ***the transitional provisions*** and the provisions on the deferred application of Regulation (EU) 2023/1115 to micro-undertakings or small undertakings, should be adjusted accordingly. In order to provide sufficient time to align technical developments of the electronic interface based on the European Union Single Window Environment for Customs, the date by which the electronic interface is in place should be adjusted accordingly.

Amendment

(16) In the light of the postponement ***by 12 month of the date of application set out in Article 38(2)*** of Regulation (EU) 2023/1115, the dates in other related provisions, namely the repeal of Regulation (EU) No 995/2010 of the European Parliament and of the Council, the provisions on the deferred application of Regulation (EU) 2023/1115 to ***natural persons***, micro-undertakings or small undertakings, should be adjusted accordingly. In order to provide sufficient time to align technical developments of the electronic interface based on the European Union Single Window Environment for Customs, the date by which the electronic interface is in place should be adjusted accordingly.

Amendment 112

**Proposal for a regulation
Recital 20 (new)**

Text proposed by the Commission

Amendment

(20) In view of the urgency to adopt targeted simplifications as well as to delay the entry into application of Regulation (EU) 2023/1115, it is considered to be appropriate to invoke the exception to the eight-week period provided for in Article 4 of Protocol No 1 on the role of national Parliaments in the European Union, annexed to the Treaty

on European Union, to the Treaty on the Functioning of the European Union and to the Treaty establishing the European Atomic Energy Community.
